PROFILE

Photographer and filmmaker with 5+ years of professional experience, with a cinematic approach to visual storytelling and unwavering attention to detail at every stage of the work. Self-taught and continuously evolving, I have built my practice through real-world collaboration with commercial brands, television productions — including Skai TV — as well as photography and video coverage of conferences, events, and content production. For clients and personal projects, I built a channel with 70,000 followers in under 6 months, while developing independent artistic projects in Greece and abroad.
